Professional Summary

I'm React.js Developer with 2+ year of experience creating responsive, scalable web applications. Skilled in React.js, Redux, JavaScript, and Tailwind CSS. Experienced in banking dashboards, reusable UI components, secure API handling, and building clean, maintainable interfaces.

Professional Experience

React.js Developer — Banking Sector

- Developed secure, optimized banking dashboard modules using React.js, Redux, Tailwind CSS.

- Built reusable UI components improving UI consistency and reducing code repetition.

- Integrated optimized API flows for customer & transaction data.

- Collaborated with backend and QA teams for smooth delivery.

- Enhanced performance through optimized state management logic.

Education

Bachelor's degree (B.Tech) in Electronics & Communication Engineering (ECE),
2019-2023
Visvesvaraya Technological University Belagavi, India
CGPA: 7.1/10

Certificates

Karnataka State Council for Science & Technology (KSCST), Indian institute of science Bangalore.
Selected Final year project and provided funds for development.

Technical Skills

Frontend: React.js (Router, Rest API, React Forms), Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, TypeScript, Next.js
Backend: Node.js, Express.js, MongoDB,
Tools: Git, GitHub, VS Code, Postman, jest.
Core Skills: API Integration, CI/CD, Routing, State Management, Responsive UI, Performance Optimization Data Structure and Algorithms, NPM

Project

*Banking Dashboard

Responsive dashboard showing user accounts, transactions, charts, and financial summaries.
Tech: React.js, Redux, Tailwind CSS, Recharts

Links: [Liv Demo](#) , [GitHub Code](#)

Built advanced chart components (line, bar, area, pie)

Added transaction filtering, search, and sorting features

Developed user profile module with editable fields

*Google Homepage Clone

A pixel-perfect Google homepage UI clone with smooth UX and responsive layout.
Tech: React.js, Tailwind CSS, Redux, Google API's

Links: [Liv Demo](#) , [GitHub Code](#)

Rebuilt full Google homepage structure with exact spacing

Added hover animations & click effects similar to original UI

* Chat Bot (Gemini Clone)

Modern AI chat interface with interactive and clean UI/UX.
Tech: React.js, Redux, Tailwind CSS, Gemini API's

Links: [Liv Demo](#), [GitHub Code](#)

Built chat bubbles, timestamps, message streaming animation

Added conversation history with Redux state persistence
